PROFESSIONAL SUMMARY

Construction professional with 10 years of industry experience, holding a Diploma and Certificate IV in Building and Construction. Currently owner-operator of a contracting business (Painting Culture Sydney), with proven success managing residential and commercial projects from estimation through to handover. Expertise bridges hands-on trade work and site management — subcontractor coordination, WHS/OHS compliance, client stakeholder management, and specialised knowledge in height safety and complex access solutions (IRATA Level 2). Seeking a Site Supervisor, Junior Foreman, or Estimator role to apply these leadership skills and technical qualifications.

CORE SKILLS

Site Supervision · Project Estimation · Subcontractor Management · WHS / OHS Management · SWMS & Risk Assessment · Quality Assurance · Defect Management · Reading Blueprints · Rope Access Planning · Buildertrend · Procore · Client & Stakeholder Management
Languages: English (fluent) · Spanish (native) · Portuguese (conversational)

EXPERIENCE

Business Owner & Lead Contractor — Painting Culture Sydney

Jan 2020 – Present (6+ years) | Sydney, NSW

- Founded and managed a specialised contracting business serving residential and commercial clients
- Responsible for end-to-end project delivery: estimation, quoting, site handover and defect rectification
- Managed subcontractor schedules, material procurement and client stakeholder relationships
- Enforced strict WHS/OHS compliance on-site, including creation of SWMS and risk assessments
- Supervised QA standards to ensure high-end finishes; used IRATA Rope Access to plan and execute complex height-safety access solutions

Independent Trade Specialist / Site Contractor

Jan 2016 – Dec 2019 (4 years) | Sydney, NSW

- Delivered specialised trade services as an independent subcontractor on high-end residential and commercial developments
- Collaborated with site foremen and carpenters to deliver premium finishes on complex architectural projects
- Managed material handling and applied architectural site drawings while enforcing WHS safety standards
- Performed remedial facade repairs and inspections at height under rigorous high-risk work protocols
